SKILLS

- HTML | CSS | JavaScript | jQuery | WordPress | NodeJS | MongoDB | ExpressJs | VueJS | GraphQl | GitHub
- Web Application | UI Development | API Integration | Database Management | Performance Optimization
- Frontend | Backend | Tamil , English – All professional proficiency or above.

EXPERIENCE

Software Associate   *Blocksera Technologies PVT.LTD*   *Chennai, TN, India*   *04/2022-04/2023*

- I meticulously crafted and engineered both front-end and back-end applications, harnessing the power of Node.js for seamless functionality, and employed MongoDB for robust and efficient data management.
- Participated in the development of a versatile UI kit by leveraging cutting-edge front-end technologies, ensuring its reusability across various projects.
- Fabricated a variety of form components and widgets by harnessing the capabilities of Vue.js, showcasing versatility and innovation while enriching user experiences across multiple applications.
- Proficiently grasp the intricacies of Vue.js Single File Components, showcasing a robust comprehension that enables the creation of efficient and well-structured front-end solutions.
- Designed and implemented an image uploader component utilizing Vue.js Single File Components, exemplifying both technical expertise and creativity in delivering a seamless user experience for handling image uploads.
- Integrated a comprehensive roadmap for customer suggestions into the existing web application, enhancing user engagement and satisfaction by prioritizing and visualizing the implementation of valuable feedback.
- Skilfully integrated Stripe payment functionality into the existing web application, facilitating secure and streamlined online transactions.
- Developed a set of RESTful API endpoints through GraphQL and MongoDB, showcasing a robust combination of modern technology and database management for efficient and flexible data retrieval and manipulation.
- Proficiently familiar with both WordPress and the Elementor Page Builder, demonstrating adeptness in creating and customizing dynamic websites, effectively translating design ideas into functional web content.
- Project Link - Divtag.io   Tech Stack – WordPress, Node.js, MongoDB, Express.js, Vue.js, GraphQL.

EDUCATION

Bachelor Of Technology   *Velammal Institute Of Technology*   *Chennai, TN, India*   *04/2022-04/2023*

- Major in Mechanical Engineering
- Studied a comprehensive range of subjects including thermodynamics, fluid mechanics, machine design, and control systems to develop a strong foundation in mechanical engineering principles.
- CGPA - 7.86

PROJECTS

- Excel Clone - Real time application to create a excel sheet. It is used for building sheets and multiple sheets can be created. Tech Stack - HTML , CSS , JavaScript .
- HackerRank Automation - Web based automation integrated with command line(Globally). Scraps information serially through multiple navigations and showed in console. Tech Stack - javaScript,Node.js.

TRAINING

PepCoding Education PVT.LTD.

- Acquired a versatile skill set covering data structures, front-end, and back-end development, leading to the execution of high-quality web projects. Demonstrated practical application by creating real-time web apps and showcasing automation using HTML, CSS, JavaScript, MongoDB, and Node.js.
